## Faculty and Instructors.

---

REV. NOAH PORTER, D.D., LL.D.

*PRESIDENT, and Clark Professor of Moral Philosophy and  
Metaphysics.* (7 TR.) 31 Hillhouse av.

---

*Kent Professor of Law.*

REV. LEONARD BACON, D.D., LL.D.

*Lecturer on Church Polity and American Church History.* (1 D. H.) 247 Church st.

---

*Chittenden Professor of Divinity, and College Pastor.*

ELIAS LOOMIS, LL.D.

*Munson Professor of Natural Philosophy and Astronomy.* (236 D.) 141 Church st.

WILLIAM A. NORTON, M.A.

*Professor of Civil Engineering.* (S. H.) 72 Prospect st.

JAMES D. DANA, PH.D., LL.D.

*Silliman Professor of Geology and Mineralogy.* 24 Hillhouse av.

REV. GEORGE E. DAY, D.D.

*Holmes Professor of the Hebrew Language and Literature  
and Biblical Theology.* (5 D. H.) 125 College st.

REV. SAMUEL HARRIS, D.D., LL.D.

*Dwight Professor of Systematic Theology.* (3 D. H.) 144 College st.

THOMAS A. THACHER, LL.D.

*Professor of the Latin Language and Literature.* 155 Crown st.

BENJAMIN SILLIMAN, M.D.

*Professor of Chemistry.* 34 Hillhouse av.

REV. CHESTER S. LYMAN, M.A.

*Sheffield Professor of Astronomy and Physics.* (S. H.) 88 Trumbull st.

REV. JAMES M. HOPPIN, D.D.

*Professor of Homiletics and the Pastoral Charge.* (7 D. H.) Sachem st., c. Mansfield.

JAMES HADLEY, LL.D.

*Professor of the Greek Language and Literature.* (203 D.) 105 Elm st.

STEPHEN G. HUBBARD, M.D.

*Professor of Obstetrics and the Diseases of Women and Children.* 23 College st.

WILLIAM D. WHITNEY, PH. D., LL.D.

*Professor of Sanskrit and Comparative Philology, and  
Instructor in Modern Languages.*

(205 D.) 246 Church st.

MOSES C. WHITE, M.D.

*Professor of Histology, Pathology, and Microscopy.*

113 George st.

HON. FRANCIS WAYLAND, M.A.

*Professor of Mercantile Law and Evidence.* (16 Exchange B'd'g.) 91 Whitney av.

REV. GEORGE P. FISHER, D.D.

*Professor of Ecclesiastical History.*

(9 D. H.) 27 Hillhouse av.

WILLIAM P. TROWBRIDGE, M.A.

*Higgin Professor of Dynamical Engineering.*

(S. H.) Prospect st.

REV. TIMOTHY DWIGHT, D.D.

*Buckingham Professor of Sacred Literature.*

(2 D. H.) 126 College st.

CHARLES A. LINDSLEY, M.D.

*Professor of Materia Medica and Therapeutics.*

132 Olive st.

HUBERT A. NEWTON, LL.D.

*Professor of Mathematics.*

(183 LYC.) 135 Elm st.

GEORGE J. BRUSH, M.A.

*Professor of Mineralogy, and Curator of the Mineralogical  
Cabinet.*

(S. H.) 14 Trumbull st.

*Professor of Physical and Political Geography.*

SAMUEL W. JOHNSON, M.A.

*Professor of Agricultural and Analytical Chemistry.*

(S. H.) 54 Trumbull st.

WILLIAM H. BREWER, M.A.

*Norton Professor of Agriculture.*

(S. H.) 246 Orange st.

CHARLES L. IVES, M.D.

*Professor of the Theory and Practice of Medicine.*

89 Elm st.

FRANCIS BACON, M.D.

*Professor of the Principles and Practice of Surgery.*

32 High st.

LEONARD J. SANFORD, M.D.

*Professor of Anatomy and Physiology.*

126 Crown st.

WILLIAM C. ROBINSON, M.A.

*Professor of Elementary and Criminal Law, and the  
Law of Real Property.*

(4 L.) 76 Olive st.

JOHN F. WEIR, N.A., M.A.

*Professor of Painting and Design.*

(9 Art Building.) 130 Bradley st.

LEWIS R. PACKARD, PH.D.

*Hillhouse Professor of the Greek Language and  
Literature.*

(121 N.) 34 York Square place.

CYRUS NORTHROP, LL.B.

*Professor of Rhetoric and English Literature.*

(137 F.) 607 Chapel st.

- DANIEL C. EATON, M.A.  
*Professor of Botany.* Sachem st., e. Prospect.
- ARTHUR M. WHEELER, B.A.  
*Professor of History.* 207 D.
- ADDISON VAN NAME, M.A.  
*Librarian.* (LIBRARY.) 121 High st.
- GEORGE F. BARKER, M.D.  
*Professor of Physiological Chemistry and Toxicology.* 30 College st.
- J. WILLARD GIBBS, PH.D.  
*Professor of Mathematical Physics.* 121 High st.
- ARTHUR W. WRIGHT, PH.D.  
*Professor of Chemistry and Molecular Physics.* 224 D.
- THOMAS R. LOUNSBURY, B.A.  
*Professor of English.* (S. H.) 187 Temple st.
- OTHNIEL C. MARSH, M.A.  
*Professor of Palæontology, and Curator of the Geological Cabinet.* (4 TR.) 9 College st.
- D. CADY EATON, M.A.  
*Professor of the History of Art.* (3 Art Building.) 53 Hillhouse av.
- EUGENE L. RICHARDS, B.A.  
*Assistant Professor of Mathematics.* (86 N. M.) 196 York st.
- JOHN H. NIEMEYER,  
*Professor of Drawing.* (8 Art Building.) 462 Chapel st.
- FRANKLIN B. DEXTER, M.A.  
*Assistant Librarian, and Registrar.* (LIBRARY.) 136 F.
- SIMEON E. BALDWIN, M.A.  
*Professor of Constitutional and Commercial Law and the Law of Contracts and Wills.* (17 Exchange Building.) 44 Wall st.
- OSCAR D. ALLEN, PH.D.  
*Professor of Metallurgy.* (S. H.) 28 Clark st.
- EDWARD B. COE, B.A.  
*Street Professor of Modern Languages.* 240 D.
- ADDISON E. VERRILL, M.A.  
*Professor of Zoölogy, and Curator of the Zoölogical Cabinet.* (4 TR.) 148 College st.
- FRANKLIN CARTER, M.A.  
*Professor of the German Language and Literature.*
- REV. WILLIAM G. SUMNER, B.A.  
*Professor of Political and Social Science.* 129 Whitney av.
- JOHNSON T. PLATT, LL.B.  
*Professor of Pleading and Equity Jurisprudence.* (18 Exchange Building.) 128 Bradley st.

HENRY P. WRIGHT, M.A.

*Assistant Professor of the Latin Language and Literature,  
on the Dunham Foundation.*

70 N. M.

JAMES K. THACHER, B.A.

*Tutor in Natural Philosophy.*

153 F.

HENRY A. BEERS, B.A.

*Tutor in English Literature.*

102 N.

EDWARD HEATON, B.A.

*Tutor in Mathematics.*

21 S.

THOMAS HOOKER, M.A.,

*Tutor in Greek.*

172 F.

EDWARD G. COY, B.A.

*Tutor in Latin.*

58 S. M.

REV. HENRY WARD BEECHER,

*Lyman Beecher Lecturer on Preaching.*

Brooklyn, N. Y.

MARK BAILEY, M.A.

*Instructor in Elocution.*

(150 F.) 185 Temple st.

JOHN E. CLARK, M.A.

*Instructor in Mathematics.*

190 Orange st.

ALBERT S. WHEELER, M.A.

*Instructor in German.*

12 Trumbull st.

WILLIAM L. BRADLEY, M.D.

*Demonstrator in Anatomy, and Curator of the Museum.*

22 College st.

GUSTAVE J. STOECKEL, MUS. D.

*Instructor in Vocal Music.*

137 York st.

RICHARD M. BACHE, of the U. S. Coast Survey,

*Instructor in Plane Table Surveying.*

462 Chapel st.

F. R. HONEY,

*Instructor in Orthographic Projection.*

42 Prospect st.

ABRAM M. SHEW, M.D., Superintendent of General Hospital for Insane.

*Lecturer on Insanity.*

Middletown.

DANIEL H. WELLS, C.E.

*Instructor in Civil Engineering.*

99 Bradley st.

SIDNEY I. SMITH, PH.B.

*Assistant in Zoölogy.*

(4 TR.) 148 College st.

OSCAR HARGER, M.A.

*Assistant in Paleontology.*

(4 TR.) 42 S. M.

EDWARD S. BREIDENBAUGH, M.A.

*Instructor in Chemistry.*

S. H.

CHARLES S. HASTINGS, PH.B.

*Instructor in Physics.*

90 Grove st.

HORACE ANDREWS, C.E.

*Instructor in Surveying.*

8 York sq.

DANIEL H. PIERPONT, PH.B.

*Instructor in Surveying.*

145 Olive st.

THEOPHIL M. PRUDDEN, PH.B.

*Instructor in Chemistry.*

S. H.

LOUIS BAIL,

*Instructor in Drawing.*

43 Park place.

## GENERAL STATEMENT.

---

The departments of instruction in YALE COLLEGE are comprehended under four divisions, as follows :

The Faculty of THEOLOGY,  
of LAW,  
of MEDICINE,  
of PHILOSOPHY AND THE ARTS.

Under the last-named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named, and afterwards the three Professional Departments.

---

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

---

## Department of Philosophy and the Arts.

---

### INSTRUCTION FOR GRADUATE AND SPECIAL STUDENTS.

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee, designated by the Faculty, has a general oversight of the students in this department. The Committee this year is composed of Professors Whitney, Newton, Brush, and Wheeler. They will receive and record the names of applicants for instruction, and judge and approve the courses of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4.)

The fee for instruction in the Scientific School is \$150 a year; in the other sections of the Department generally \$100, or more or less, according to the course pursued and the amount of instruction received.

The degree of DOCTOR OF PHILOSOPHY is conferred upon those who, having already taken a Bachelor's degree, engage as students in this Department for not less than two years in assiduous and successful study. It is not given upon examination, to those whose studies are pursued elsewhere. The requirements for it will in some cases exact of the student more than two years of post-graduate labor; so, especially, wherever the course of undergraduate study has been of less than four years. The candidate must pass a satisfactory final examination, and present a thesis giving evidence of high attainment in the branches of knowledge to which he has attended. A good knowledge of Latin, German, and French will be required in all cases, unless, for some

exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The degree of BACHELOR OF PHILOSOPHY (regularly conferred only on those who have completed one of the three-year courses in the Scientific School) may be, in special cases, given to undergraduate students in other sections, after at least three years of faithful study, ending with an examination and the presentation of a thesis.

The courses of instruction given in the department may be grouped as follows :

### *I. Political Science, History, Philosophy, and English Literature.*

PRESIDENT PORTER will instruct in psychology and philosophy, in the history of philosophy, and in ethics.

Ex-PRESIDENT WOOLSEY will instruct in special cases in international law.

PROFESSOR HADLEY will give a course of lectures on Roman law.

PROFESSOR WHEELER will instruct in the constitutional history of England and the United States and in the general history of Europe in the 16th, 17th and 18th centuries.

PROFESSOR SUMNER will instruct in political economy.

MR. H. A. BEERS will instruct in Anglo-Saxon and the history of English literature.

Courses of lectures will be given this year, by MR. DAVID A. WELLS, on special topics in political economy, and by MR. E. L. GODKIN, on social science.

### *II. Philology.*

PROFESSOR THACHER will give instruction in Latin authors not usually read in College ; and, in particular, will go over selected plays of Plautus and Terence, with special reference to early Latin forms, constructions, and metres.

PROFESSOR HADLEY will teach the structure of the Greek language, as viewed in the light of comparative philology ; he will instruct in special Greek authors, as Pindar, Aristophanes, Theocritus, Plato, and Aristotle ; also, in Gothic grammar and the Bible-version of Ulfilas.

PROFESSOR WHITNEY will instruct in the first year in the general principles of linguistic science, and in the second year in the comparative philology of the Indo-European languages. He will also teach the Sanskrit language, in a course of study extending through both years.

PROFESSOR PACKARD will instruct in the Greek tragic poets and in the history of Greek literature.

Mr. VAN NAME will teach the elements of the Chinese and Japanese languages.

Professor LOUNSBURY will give instruction in the Anglo-Saxon language, and in the early forms and literature of English.

Professor COE will teach the relations of the modern Romanic languages, especially the French, to the Latin, and will give assistance to students of the Old-French language and literature.

The Hebrew and other Semitic languages may be pursued under Professor DAY of the Theological Department, either in connection with his regular classes or otherwise.

### III. *Mathematical and Physical Science.*

For the instruction given to graduate and special students in the Sheffield Scientific School, see below (pp. 61, 62). The courses there specified may be variously combined with those here announced, or the student may occupy himself in either section exclusively, according to his circumstances and plans.

Professor LOOMIS will teach meteorology, with especial reference to the making and reducing of meteorological observations.

Professor DANA will instruct in crystallography.

Professor NEWTON will instruct, the first year, in the calculus, in analytical statics, and in the dynamics of a particle; the second year, in the lunar and planetary theories and in the higher geometry.

Professor GIBBS will instruct in the laws of vibratory and undulatory motion, with especial reference to light and sound; in the combination of observations by the method of least squares; in the potential function, with its application to the theories of electricity and magnetism; and in capillarity.

Professor A. W. WRIGHT will instruct in heat, light, and electricity, with practical instruction in the management of apparatus.

### IV. *Fine Arts.*

For the instruction given to graduate and special students in the Yale School of the Fine Arts, see below (pp. 69, 70).

---

## Undergraduate Academic Department.

---

### TERMS OF ADMISSION.

THE REGULAR EXAMINATION FOR ADMISSION will take place at Graduates' Hall on the Friday and Saturday following Commencement (June 27, 28, 1873): *attendance is required at the beginning of the examination, at 9 A. M. on Friday.* The examination is partly oral and partly written; copies of papers given at recent examinations will be sent on application.

A second Examination will take place at the beginning of the academic year, on Tuesday and Wednesday (Sept. 9 and 10, 1873); candidates for this examination are required to assemble at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the Freshman Class can be held in advance of the times above specified.

CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects:—

Latin Grammar—including Prosody.

Sallust—Jugurthine War; or four books of Cæsar.

Cicero—seven Orations.

Virgil—the Bucolics, Georgics, and first six books of the Æneid.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters).

---

Greek Grammar—including Prosody.

Xenophon—Anabasis, first four books.

Homer—Iliad, three books.

---

Higher Arithmetic—including the metric system of weights and measures.

Loomis's Algebra—to Quadratic Equations.

Euclid—first two books. [The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered as a substitute for Euclid.]

---

English Grammar and Geography; a thorough knowledge of which is required.

ADVANCED STANDING.—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those already pursued (see below) by the Class which they propose to enter. For the particular books in Greek, or Latin, or French, studied by the Class, equivalent amounts may be offered from other books in the same language.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class *without examination* as candidates for the degree of Doctor of Philosophy; which degree will be conferred on such persons after three years' study. (See pp. 48-50.)

No one can be admitted to the Senior Class, after the beginning of the second term.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS.—Satisfactory testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must present certificates of dismissal in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to secure the payment of all charges arising under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, until they have been admitted to matriculation on satisfactory evidence of good moral character. Before this, they are students on probation. The laws of the College provide for the final separation from the institution, of those who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

#### COURSE OF INSTRUCTION.

THE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

The following is a scheme of the studies, or, more correctly, of the equivalents which will be accepted from candidates for advanced standing:—

#### FRESHMAN YEAR.

FIRST TERM—*Greek*.—Homer's *Odyssey*, begun. *Latin*.—Livy, begun; Arnold's Latin Composition. *Mathematics*.—Todhunter's *Euclid*.

SECOND TERM—*Greek*.—Homer's *Odyssey*, continued through four books; Herodotus, begun; Arnold's *Greek Composition*. *Latin*.—Livy, continued through a hundred pages. *Mathematics*.—Chauvenet's *Geometry*; Loomis's *Algebra*. *History*.—Liddell's *Rome*.

THIRD TERM—*Greek*.—Herodotus, continued through half of the first book; Arnold's *Greek Composition*. *Latin*.—Odes of Horace, three books; Arnold's *Latin Composition* (to page 150). *Mathematics*.—Loomis's *Algebra*; Chauvenet's *Geometry*. *Rhetoric*.—Recitations and Lectures. Compositions.

#### SOPHOMORE YEAR.

FIRST TERM—*Greek*.—Six *Orationes* of Demosthenes. *Latin*.—Satires and Epistles of Horace. *Mathematics*.—Loomis's *Trigonometry*. *Rhetoric*.—Lectures on Elocution, with practice. Declamations. Lectures on Composition. Compositions. Criticism.

SECOND TERM—*Greek*.—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book. *Latin*.—Cicero *de Senectute*; *Captivi* of Plautus. *French*.—French Inflection; Fénelon's *Télémaque*, one book. *Mathematics*.—Loomis's *Analytical Geometry*; Loomis's *Conic Sections*. *Rhetoric*.—Declamations. Compositions.

THIRD TERM—*Greek*.—Antigone of Sophocles. *Latin*.—Satires of Juvenal. *French*.—French Syntax; Fénelon's *Télémaque*, continued through six books. *Mathematics*.—Loomis's *Trigonometry*. *Rhetoric*.—Declamations. Compositions.

#### JUNIOR YEAR.

FIRST TERM—*Greek*.—Plato's *Gorgias*, or two books of Arrian's *Anabasis*. *Mathematics*.—(See Elective Studies, page 54.) *Natural Philosophy*.—Ganot's *Physics*;—Mechanics. *Rhetoric*.—History of English Literature. Forensic Disputations. Lectures. *Logic*.—Jevons's *Logic*.

SECOND TERM—*Latin*.—Tacitus. *German*.—German Grammar and Reader. *Mathematics*.—(See Elective Studies, page 54.) *Natural Philosophy*.—Ganot's *Physics*. Lectures. *Rhetoric*.—Forensic Disputations.

THIRD TERM—*Astronomy*.—Loomis's *Astronomy*, to Chapter xii. *Physics*.—Recitations and Lectures. *Greek*.—Demosthenes on the Crown, or half a book of Thucydides. Lectures. *German*.—(See Elective Studies, page 54.)

#### SENIOR YEAR.

FIRST TERM—*Mental Philosophy*.—Porter's *Elements of Intellectual Science*. *Political Philosophy*.—Perry's *Political Economy*. Lectures. *Astronomy*.—Loomis's *Astronomy*, finished. *Rhetoric*.—Compositions. Criticism. *History*.—Guizot's *History of Civilization*. Lectures. *Latin*.—Cicero *pro Cluentio*. *Chemistry*.—Lectures and Recitations. *German*.—(See Elective Studies, page 54.)

SECOND TERM—*Natural Theology and Evidences of Christianity*.—Lectures. *Moral Philosophy*.—Recitations and Lectures. *Geology*.—Dana's *Geology*. *Rhetoric*.—Compositions. *History*.—Hallam's *Constitutional History*. Lectures on English History in XVI. and XVII. centuries. *Political Philosophy*.—Lieber's *Civil Liberty*. Lectures. *Anatomy and Physiology*.—Lectures.

THIRD TERM—*History of Philosophy*.—Recitations. *Political Philosophy*.—Woolsey's International Law. *Constitutional History*.—De Tocqueville's Democracy in America. Lectures. *Constitution of the United States*.—Lectures. *Language and the Study of Language*.—Lectures. *Botany*.—Lectures.

---

## LECTURES.

### FIRST TERM.

SENIOR CLASS—*History*.—Professor WHEELER. *Chemistry*.—Professor WRIGHT.  
*Political Economy*.—Professor SUMNER.  
 SOPHOMORE CLASS—*Rhetoric*.—Professor NORTHROP.  
 FRESHMAN CLASS—*Hygiene*.—Professor SANFORD.

### SECOND TERM.

SENIOR CLASS—*Natural Theology and Evidences of Christianity*.—The PRESIDENT.  
*Moral Philosophy*.—The PRESIDENT. *Anatomy and Physiology*.—Professor SANFORD.  
*History*.—Professor WHEELER. *Political Philosophy*.—Professor SUMNER. *Botany*.—Professor EATON.  
 JUNIOR CLASS—*Natural Philosophy*.—Professor LOOMIS.

### THIRD TERM.

SENIOR CLASS—*Language and the Study of Language*.—Professor WHITNEY.  
*History*.—Professor WHEELER. *Botany*.—Professor EATON. *Constitution of the United States*.  
 JUNIOR CLASS—*Greek History*.—Professor PACKARD. *Physics*.—Professor WRIGHT.

---

EXERCISES IN DECLAMATION AND COMPOSITION.—The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in elocution; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.—Those students who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose the Differential and Integral Calculus, during the first two terms of Junior year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior year, the study of German may be continued, in place of Greek.

During the first term of the Senior year, the members of the class have their option, to continue the study of German,—in place of either Astronomy, or Latin.

PUBLIC EXAMINATIONS are held at the close of the first and second terms, on the studies of the term; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC.—Gratuitous instruction in Vocal Music is given during the year (the exercises being open to members of all the Departments of the College), subject, however, to a small charge for fire and lights.

---

#### PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sunday, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

---

#### TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June.

The first term for the year 1872-73 begins eleven weeks from Commencement-day and continues fourteen weeks; the second begins on the first Thursday in January and continues thirteen weeks; the third begins ten weeks before Commencement-day. The intervening periods, of eleven, two, and two weeks, are assigned for vacations. (*See Calendar*, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in the vacations. The absence of a student in term time, even for a few days, occasions him a much greater injury than is commonly supposed by parents or guardians.

---

#### GYMNASIUM.

The Gymnasium is designed to provide all the students with opportunities for exercise. For the privileges of the same, including instruction, the sum of four dollars a year is charged to each Academical student. Those who use the bath-rooms connected with the Gymnasium pay a small fee for tickets.

## EXPENSES.

THE TREASURER'S BILLS are made out three times a year, and are delivered before the close of each term to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term: if not paid within two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bills are,—

For tuition,	- - - - -	\$90
“ rent and care of half-room in College (average),	- -	35
“ expenses of public rooms, ordinary repairs, and incidentals,		12
“ Gymnasium,	- - - - -	4
“ Library and Reading Room.	- - - - -	7
		<hr/> \$148

OTHER CHARGES.—There are additional charges at graduation, amounting to eighteen dollars. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ADVANCED STUDENTS.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

ABSENCE ON LEAVE.—A student who is absent from College, on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD.—Board is obtained at prices varying from \$4.00 to \$7.00 a week. The average price for the summer of 1872 was about \$5.50. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses.

ROOMS.—There are at present in the College buildings 220 rooms occupied by students, at prices varying (according to location) from \$25. to \$140. per year.

Students who wish to take lodgings in town are permitted to do so: if, in consequence of this, any of the rooms in College assigned to their Class are left vacant, they will be assessed to the amount of the rent of such rooms. The expense of room rent in private houses is much greater than in College. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES.—The following may be considered a near estimate of the *necessary* annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room),	from \$125 to \$183
Board, 40 weeks, - - - - -	" 160 " 280
Fuel and lights, - - - - -	" 15 " 25
Use of text-books and stationery, - - -	" 10 " 20
Use of furniture, - - - - -	" 10 " 20
Washing, - - - - -	" 20 " 40
Total, - - - - -	\$340 \$568

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance sometimes deposit funds with some one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

#### BENEFICIARY FUNDS.

The sum of seven thousand dollars and upwards, derived partly from permanent charitable funds, will be annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About eighty thus have their tuition either wholly or in part remitted. Students needing such aid are requested to inform the Senior officer of the Class to which they belong, soon after entering College. Assistance will be *withdrawn* from students who incur College discipline, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also sixteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

---

#### SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding over one hundred dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence in New Haven) until he would regularly take his second degree.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP, and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of the two latter Scholarships is sixty dollars.

THE W. W. DEFORREST SCHOLARSHIP, yielding about one hundred and twenty-five dollars, will be awarded in 1873 to that member of the Junior Class who shall pass the best examination on the *Life and Works of Montaigne*. The examination will be in writing, and will be held in the first half of the summer term.

## PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, is awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES (the first, consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior Class for the best solutions of problems in both abstract and concrete mathematics.

CLARK PREMIUMS are offered to the Senior Class, for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the third term.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

BERKELEY PREMIUMS for Latin Composition are offered to the Sophomore Class near the beginning of the third term.

---

DEGREES.

BACHELOR OF ARTS.—The degree of Bachelor of Arts is conferred by the Corporation on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

MASTER OF ARTS.—After June, 1874, the degree of Master of Arts will only be conferred by the Corporation on those who give satisfactory evidence that they have been pursuing advanced courses of study. The conditions will be more fully stated hereafter.

## Sheffield Scientific School.

---

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require especial proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1864, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education (under the Congressional enactment of July, 1862). It thus became in consequence the "College of Agriculture and the Mechanic Arts" for Connecticut.

OFFICERS AND INSTRUCTORS.—In addition to the Governing Board (mentioned on p. 38), on whom devolves the internal management of the School, the following additional instructors are employed during the current year :—

JOHN E. CLARK, M.A., Mathematics ; ALBERT S. WHEELER, M.A., German ; LOUIS BAIL, Drawing ; F. R. HONEY, Orthographic Projection ; DANIEL H. WELLS, C.E., Analytical and Descriptive Geometry ; SIDNEY I. SMITH, Ph.B., Zoölogy ; OSCAR HARGER, M.A., Palæontology ; EDWARD S. BREIDENBAUGH, M.A., Chemistry ; CHARLES S. HASTINGS, Ph.B., Physics ; HORACE ANDREWS, C.E., Surveying ; DANIEL H. PIERPONT, Ph.B., Surveying ; THEOPHIL M. PRUDDEN, Ph.B., Chemistry.

Instruction is given in Elementary and Free-hand Drawing by Professor NIEMEYER, of the Yale School of the Fine Arts ; in the Use of the Plane Table by R. M. BACHE, Esq., of the U. S. Coast Survey ; in Elocution by MARK BAILEY, M.A., of the Academical Department.

The Board of State Visitors consists of the Governor, Lieutenant-Governor, three senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows :—Hon. J. E. ENGLISH, of New Haven ; Hon. M. JEWELL, of Hartford ; Hon. J. R. HAWLEY, of Hartford ; Hon. O. F. WINCHESTER, of New Haven ; JOSEPH E. SHEFFIELD, Esq., of New Haven ; Professor J. D. DANA, of New

Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, M.A., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students :—

I. Graduates of this or of other Colleges, and other persons qualified for advanced or special scientific study.

II. Undergraduates who desire a training chiefly mathematical and scientific, in less part linguistic and literary, for higher scientific studies, or for various other occupations to which such training is suited.

#### INSTRUCTION FOR GRADUATE AND SPECIAL STUDENTS.

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two, or three years the degree of BACHELOR OF PHILOSOPHY, or, in an additional year of Engineering study, that of CIVIL ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 48). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the graduate instructors in other departments (see pp. 49, 50). Subjects likely to receive special attention are suggested as follows :—

Professor NORTON will instruct in the mechanics of rigid bodies and of fluids, and in spherical astronomy, including the computation of planetary and cometary orbits.

Professor LYMAN, in the use of meridional and other astronomical instruments, and in astronomical spectroscopy.

Professor TROWBRIDGE, in the principles of thermodynamics, or the artificial generation, transfer, and utilization of heat as a source of power.

Professor BRUSH, in the analysis and determination of mineral species, and in descriptive mineralogy.

Professor JOHNSON, in theoretical, analytical, and agricultural chemistry.

Professor BREWER, in agriculture and forest culture, in the use of the microscope, and in physical geography.

Professor EATON, in structural and systematic botany, including the North American flora and the description of genera and species.

Professor MARSH, in palæontology and comparative osteology.

Professor ALLEN, in analytical chemistry, and in metallurgy.

Professor VERRILL and Mr. S. I. SMITH, in zoölogy and geology.

Mr. J. E. CLARK, in the general theory of equations, and in the differential and integral calculus.

The same courses of study are open, for a longer or shorter time, to graduate students who do not desire to become candidates for a degree.

The degree of CIVIL ENGINEER is conferred on Bachelors who have taken the first degree in engineering study, and who pursue a higher course for at least one year, sustaining a final examination, and giving evidence of their ability to design important constructions and to make the requisite drawings and calculations. The fee for this degree is five dollars.

SPECIAL STUDENTS.—For the benefit of those who, being fully qualified, desire to pursue particular studies without reference to the obtaining of a degree, special or irregular students are received in most of the departments of the School (not, however, in the Select Course).

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

#### INSTRUCTION FOR UNDERGRADUATE STUDENTS.

TERMS OF ADMISSION.—Candidates must be not less than sixteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission the student must pass a thorough examination in *Arithmetic*, including the Metric System; in Davies's Bourdon's *Algebra* as far as the General Theory of Equations, or in its equivalent; in *Geometry*, in the nine books of Davies's Legendre, or their equivalent; in *Plane Trigonometry*, Analytical Trigonometry inclusive; in *Geography*, *United States History*, and *English Grammar*, including Spelling, and in *Latin*. In this last, students are required to be able to read and construe some classical author, and six books of Cæsar's Commentaries, or their equivalent, are suggested as exhibiting the least amount which a student should offer for examination. Practice in *Drawing*, if it can be obtained before entrance, will be of great advantage.

The examinations for admission take place at Sheffield Hall, on Saturday, June 21st, and Friday, June 27th, the Saturday preceding and the Friday following Commencement; and on Wednesday, Sept. 10th, 1873. Opportunity for private examination may, in exceptional cases, be given at other times.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they propose to enter. No one can be admitted as a candidate for a degree later than at the beginning of the Senior year.

COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all; during the last two years the instruction is chiefly arranged in special courses.

The special courses most distinctly marked out are the following:—

- (a.) In Chemistry and Metallurgy;
  - (b.) In Civil Engineering;
  - (c.) In Dynamical (or Mechanical) Engineering;
  - (d.) In Agriculture;
  - (e.) In Natural History;
  - (f.) In studies preparatory to Medical Studies;
  - (g.) In studies preparatory to Mining;
  - (h.) In Select studies preparatory to other higher pursuits, to business, etc.
- 

The arrangement of the studies is indicated in the annexed scheme.

#### FRESHMAN YEAR.—INTRODUCTORY TO ALL THE COURSES.

FIRST TERM—*German*.—Whitney's Grammar and Reader. *English*.—Hadley's Brief History of the English Language; Exercises in Composition. *Mathematics*.—Davies's Analytical Geometry, and Spherical Trigonometry. *Physics*.—Atkinson's Ganot, with experimental lectures. *Chemistry*.—Eliot and Storer's Manual; Laboratory practice. *Elementary Drawing*.—Practical Lessons in the Art School.

SECOND TERM—*Language, Physics, Chemistry, and Drawing*.—As stated above. *Mathematics*.—Church's Descriptive Geometry. *Elocution*.

THIRD TERM—*Mathematics*.—Surveying and Plotting. *Botany*.—Gray's Lessons. *Physical Geography*.—Ten Lectures on the Outlines of the Structure of the Earth. Other studies continued. *Drawing*.—Binn's Orthographic Projection.

For the Junior and Senior years the students select for themselves one of the following courses:—

#### (a.) IN CHEMISTRY AND METALLURGY.

#### JUNIOR YEAR.

FIRST TERM—*Theoretical and Organic Chemistry*.—Lectures. *Chemical Analysis*.—Fresenius. Use of Blow-pipe. *Laboratory Practice*.—Qualitative Analysis. Exercises in English Composition. *German*. *French*.

SECOND TERM—*Laboratory Practice*.—Qualitative Analysis, continued. Quantitative Analysis, begun. *Zoölogy*.—Lectures. Exercises in English Composition. *German*. *French*.

THIRD TERM—*Mineralogy*.—Dana's. Lectures and Practical Exercises. *Organic Chemistry*.—Lectures. *Zoölogy*.—Lectures and Excursions. *Laboratory Practice*.—Quantitative Analysis, continued. Exercises in English Composition. *French*—continued.

#### SENIOR YEAR.

FIRST TERM—*Metallurgy*.—Percy. Lectures. *Geology*.—Dana's. Lectures and Recitations. *Zoölogy*.—Lectures. *Laboratory Practice*.—Volumetric and Organic Analysis. *Determinative Mineralogy*. Exercises in English Composition. *French*—continued.

SECOND AND THIRD TERMS—*Metallurgy*.—Lectures. *Agricultural Chemistry*.—Recitations and Lectures. *Geology*.—Dana. *Laboratory Practice*.—Mineral Analysis and Assaying. *Determinative Mineralogy*. *French*—continued.

#### (b.) IN CIVIL ENGINEERING.

#### JUNIOR YEAR.

FIRST TERM—*Mathematics*.—Analytical Geometry of Three Dimensions. Church's Differential Calculus. Church's Descriptive Geometry, continued. *Surveying*.—Topographical and Hydrographic. *Drawing*.—Plotting, and Chart Drawing. Exercises in English Composition. *French and German*.

SECOND TERM—*Mathematics*.—Differential and Integral Calculus. *Astronomy*.—Norton's Astronomy, with practical problems. Exercises in English Composition. *French and German*.

THIRD TERM—*Mechanics*.—Peck's Elements. *Surveying*.—Topographical. Topographical sketching in the field. *Drawing*.—Binn's Second Course of Orthographic Projections. Linear Perspective. Isometrical and Topographical Drawing. Exercises in English Composition. *French*.

#### SENIOR YEAR.

FIRST TERM—*Field Engineering*.—Laying out curves. Location of line of Railroad, with calculations of excavation and embankment. Henck's Field Book for Railroad Engineers. *Stone Cutting*.—with graphical problems. *Mechanics*.—Mechanics applied to Engineering. *Geology*.—Dana's. *Drawing*.—Architectural. Exercises in English Composition. *French*.

SECOND TERM—*Civil Engineering*.—Mahan's. Building Materials (Lectures). Strength of Materials. Bridge Construction. *Surveying*.—with Plane Table. Geodesy. *Drawing*.—Mechanical. *French*.

THIRD TERM—*Civil Engineering*.—Bridge Construction, continued. Stability of Arches and Walls. *Dynamics*.—Principles of Mechanism. Steam Engine. *Hydraulics*.—Theory of Turbines and other Water Wheels. D'Aubuisson's Hydraulics. *Drawing*.—Structural.

Students pursuing a higher course in Engineering, for one year after graduating as Bachelors, may receive the degree of Civil Engineer.

## (c.) IN MECHANICAL ENGINEERING.

## JUNIOR YEAR.

*Pure and Applied Mathematics.*—Geometry of Machinery. Analytical Geometry of Three Dimensions. Differential and Integral Calculus. *Mechanics.*—Analytical Mechanics. *Drawing.*—Binn's Orthographic Projections. Principles of Construction. Shading and Tinting, and drawing from Patterns. *Metallurgy.* Exercises in English Composition. *French and German.*

## SENIOR YEAR.

*Applied Mechanics.*—Strength of Materials. Theory of Machines. Theory and Construction of the Steam Engine and other prime movers. Mill work. Examination of Machinery. Mechanical Construction. Use of tools. *Drawing.*—Drawing from actual Machines. Designs of Machines. Exercises in English Composition. *French. Metallurgy.*

## (d.) IN AGRICULTURE.

## JUNIOR YEAR.

FIRST TERM—*Theoretical and Organic Chemistry*—Lectures. *Experimental and Analytical Chemistry*—in their Agricultural applications. Laboratory practice. *French*—begun. *German*—continued.

SECOND TERM—*Agricultural Chemistry.*—Recitations. *Experimental Chemistry.*—Laboratory practice. *French and German*—continued. *Physical Geography.*—Lectures. *Zoölogy.*—Lectures.

THIRD TERM—*Agricultural Chemistry.*—Lectures. *Horticulture and Kitchen Gardening.*—Lectures. *Mineralogy.*—Lectures and Practical Exercises. *Zoölogy.*—Lectures. *Experimental Chemistry.*—Laboratory practice. *French*—continued. *Drawing.*—Free-hand practice. *Excursions.*—Botanical, Zoölogical, etc.

## SENIOR YEAR.

FIRST TERM—*Agriculture.*—Cultivation of the Staple Crops of the Northern States. Lectures. *Agricultural Zoölogy.*—Origin and Natural History of Domestic Animals. Insects useful and injurious to Vegetation. Lectures. *Geology.*—Dana's Manual. *French*—continued. *Excursions.*—Agricultural, Zoölogical, Geological, etc.

SECOND TERM—*Agriculture.*—Stock-raising and principles of Breeding. Lectures. *English. Human Anatomy and Physiology.*—Lectures. *French*—continued.

THIRD TERM—*Rural Economy.*—History of Agriculture and Sketches of Husbandry in Foreign Countries. Adaptation of farming to soil, climate, market, and other conditions. Systems of Husbandry. Stock, sheep, grain, and mixed farming. Lectures. *Excursions.*—Agricultural, Geological, Zoölogical, and Botanical.

## (e.) IN NATURAL HISTORY.

(Either Geology, Mineralogy, Zoölogy, or Botany may be made the principal study, some attention in each case being directed to the other three branches of Natural History.)

## JUNIOR YEAR.

FIRST TERM—*Zoölogy*.—Daily Laboratory instruction; Zoölogical Excursions. *Botany*.—Gray's Text-Book; Use of the Microscope. *Chemistry*.—Theoretical and Organic Chemistry. *French*—begun. *German*—continued.

SECOND TERM—*Zoölogy and Palæontology*.—Laboratory practice. Lectures. *Botany*.—Lectures; Gray's Text-Book. *Physical Geography*.—Lectures and Recitations. *Chemistry*.—Laboratory practice. *French and German*—continued.

THIRD TERM—*Zoölogy and Palæontology*.—Laboratory practice. Lectures, Excursions (land and marine). *Botany*.—Excursions. Practical exercises. Gray's Manual. *Mineralogy*.—Dana's. Lectures. Practical exercises. *French*—continued. *Drawing*.—Free-hand practice.

## SENIOR YEAR.

FIRST TERM—*Language*.—Whitney's Language and the Study of Language. *French*.—Selections. *Zoölogy and Palæontology*.—Laboratory Practice. Lectures. Excursions. *Botany*.—Excursions. Herbarium studies. *Geology*.—Dana's Manual. Excursions.

SECOND TERM.—*Zoölogy and Palæontology*—continued. *Botany*.—Herbarium studies. Botanical Literature. Essays in Descriptive Botany. *Geology*.—Dana's. Lectures. *Anatomy and Physiology*.—Academical Lectures. *French*.—Selections. *Whitney on Language*—continued.

THIRD TERM.—*Zoölogy, Botany, and Palæontology*—continued, with Excursions. *Photography*.—Practical instruction.

Besides the regular courses of lectures on structural and systematic Zoölogy and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe Genera and Species in the language of science. For these purposes, large collections in Zoölogy and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

## (f.) IN PREPARATION FOR MEDICAL STUDIES.

During the Junior year, the work of this course will be chiefly under the direction of the instructors in Chemistry. Especial attention will be given to qualitative and quantitative analysis, in their physiological and medical bearings; and to the preparation and study of the organic proximate elements. In the Senior year, the work will be chiefly under the direction of the Professors of Zoölogy and Botany. Attention will be paid in Zoölogy to comparative anatomy, reproduction, embryology, the laws of hereditary descent, and human parasites; and in Botany to a general knowledge of structural and physiological Botany, and to medicinal, food-producing, and poisonous plants. The studies of the Select Course in Physical Geography, History, English Literature, etc., are followed by these students.

## (g.) IN STUDIES PREPARATORY TO MINING.

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgy, mineralogy, etc.

(h.) IN SELECT STUDIES PREPARATORY TO OTHER HIGHER PURSUITS, TO BUSINESS, ETC.

JUNIOR YEAR.

FIRST TERM.—*German, Anglo-Saxon and Early English, and Drawing*—continued. *French*—begun. Lectures and Exercises in Chemistry and Mineralogy, Lectures on the Physical Geography of Europe.

SECOND TERM.—*German, French*—continued. *English*.—Chaucer. *Astronomy*.—Norton's *Astronomy*, with practical problems. *Modern History*.—Recitations and Lectures.

THIRD TERM.—*French*—continued. *English*.—Shakespeare. *Mechanics*.—Peck's *Elements*. *Botany and Zoölogy*—Lectures and Excursions.

SENIOR YEAR.

LANGUAGE.—The study of French is continued through the year, and during the first two terms there are recitations in Whitney's Language and the Study of Language. In English, Shakespeare, Milton, Dryden, and Pope are the authors studied throughout the year, and in the order here named.

NATURAL SCIENCE.—The study of Geology is pursued by recitations, lectures and excursions. Lectures are given in Rural Economy and the Principles of Agriculture, and also in Agricultural Chemistry. Botany is studied during the early part of the autumn term.

HISTORY, GEOGRAPHY, AND POLITICAL PHILOSOPHY.—Lectures, Recitations, and Exercises will be continued through the year.

Exercises in English Composition are required during the entire course from all the students. During the Senior year, the preparation of the thesis occupies the attention of the class.

Lectures on Military Science and Tactics are annually given.

TERMS AND VACATIONS.—The terms and vacations correspond with those of the Academical Department. (See Calendar, page 4.)

EXPENSES.—The charge for tuition is \$150 per year, payable \$55 at the beginning of the first and of the second term, and \$40 at the beginning of the third term. The special student of Chemistry has an additional charge of seventy-five dollars per annum for chemicals, and use of apparatus. He also supplies himself at his own expense with gas, flasks, crucibles, etc., the cost of which should not exceed ten dollars per term. An additional charge of five dollars is annually made to each student for the use of the College Reading Room and Gymnasium.

The fee for graduation as Bachelor of Philosophy, including the charges for Triennial Catalogues, Commencement Dinners, etc., is ten dollars; unless the person taking the degree is also an academical graduate, when it is but five dollars.

## DEGREES.

**BACHELOR OF PHILOSOPHY.**—The degree of Bachelor of Philosophy is conferred on those who have completed one of the three-year courses in the SHEFFIELD SCIENTIFIC SCHOOL, and have passed the examination at its close.

**CIVIL ENGINEER.**—The degree of Civil Engineer is conferred on students of a higher course in Engineering (occupying one year), who have sustained the final examination, and given evidence of their ability to design important constructions, and make the requisite drawings and calculations. The fee for this degree is five dollars.

**DOCTOR OF PHILOSOPHY.**—The terms on which this degree is conferred are given on page 48.

## School of the Fine Arts.

---

THE SCHOOL OF THE FINE ARTS embraces in its object the cultivation and promotion of the Plastic Arts, viz., Painting, Sculpture, and Architecture, both in their artistic and æsthetic aims, through practice and criticism.

In Drawing, Painting, and Modelling, the School offers a systematic course of instruction, directed to the attainment of a thorough knowledge of the practice of these arts; it also includes in its instructions drawing as applied to scientific pursuits.

This Department of the College is open to all who desire to avail themselves of its instructions, without restriction, save as to age and general good character. It affords the special art-student a thorough acquaintance with the practice and theory of art, and combines with this a knowledge of its history and philosophy. It aims to embrace the widest possible field of usefulness in connection with the knowledge and promotion of art, and offers facilities to the art-student that are unsurpassed in system and variety by any art-school in the country. Its museum embraces a large and continually increasing collection from the antique, numbering above one hundred pieces of sculpture, and including complete casts of the celebrated Ghiberti gates of the Baptistery, at Florence—of which there are none other in this country, and but three are to be found in the museums of Europe; also, the well-known “Jarves Gallery” of Italian Paintings, being, for the most part, original examples of Italian art, dating from the 11th to the 17th centuries, and numbering one hundred and twenty pictures; also the “Trumbull Gallery,” which has special value in relation to the art and history of this country, being composed largely of admirable portraits of prominent men concerned with establishing our independence; and, in addition to these, other works of art temporarily loaned for exhibition. These collections are open to art-students, for the purposes of study, at all hours.

In connection with the practical instruction of the School, lectures on the practice, theory, and history of art will be delivered,

in regular course, by its professors. These lectures are open to special art-students without charge, and to the public on payment of the usual fee.

The terms for instruction are \$12 per month, or \$100 for the College year, to be paid in advance. Special students have free access to the collections at all times, and are entitled to such privileges, under the usual restrictions, as are granted to students in other departments of the College.

The terms and vacations correspond, for the present, with those of the Academical Department (see p. 4).

The Drawing and Painting rooms are open daily for the use of students. Those desiring to continue their studies after the usual hours will have free access to the rooms at all times.

THE COLLECTIONS are open to the public during the winter, from 1½ to 4½ P. M. daily; and during the summer from 10 A. M. to 6 P. M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, to increasing the collections, and to the incidental expenses of the School.

THE FACULTY OF THE SCHOOL, on whom devolves its internal management, consists of the President of the College and the Professors whose names and departments of instruction are as follows:—JOHN F. WEIR, Professor of Painting, and Director of the School; D. CADY EATON, Professor of the History of Art; JOHN H. NIEMEYER, Professor of Drawing. In addition to these, there are two unfilled chairs of instruction, viz., of Sculpture and of Architecture; and two instructorships, viz., of Anatomy and Perspective.

THE COUNCIL OF THE SCHOOL consists of the following *ex-officio* members:—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four regularly appointed Councillors.

The Art Building, a large and costly structure, erected upon the College square by the munificence of the late AUGUSTUS RUSSELL STREET, contains commodious galleries well adapted to the purpose of an Art Museum, and for lectures; drawing, painting, and modelling rooms, designed for the instruction of classes; also library rooms and studios.

## Theological Department.

---

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Systematic Theology, a Professor of Hebrew Literature and Biblical Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

CONDITIONS OF ADMISSION.—The conditions of entrance are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted to the Seminary.

It is expected that every student will be promptly on the ground at the commencement of the session. Rooms will be assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

COURSE OF INSTRUCTION.—The regular course occupies three years, and is arranged in the following order :—

### JUNIOR YEAR.

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the Class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures; also, as incidental to these topics, on the various forms of Skepticism.

### MIDDLE YEAR.

Professor HARRIS will lecture five times a week on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics: an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and Persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation); and the history of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Scriptures. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetic books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the critical study of the New Testament, especially the Epistles of Paul.

Dr. BACON will lecture on American Church History.

### SENIOR YEAR.

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture on the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will give a series of lectures on Church polity, with special reference to the polity and discipline of the Congregational Churches.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

## OPTIONAL STUDIES IN EITHER YEAR.

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor WHITNEY will give instruction to those who desire it in Sanskrit.

Instruction in vocal music is given gratuitously to students who desire it. (See p. 55.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular studies of the Seminary: on *Natural Theology and Moral Philosophy*, by President PORTER; on *Natural Philosophy*, by Professor LOOMIS; on *History*, by Professor WHEELER; on *Political Economy and Political Philosophy*, by Professor SUMNER; on *Anatomy and Physiology*, by Professor SANFORD. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the further privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING.—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Regular instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE TO PREACH.—The regular time for applying for a license is at the close of the second year's study, before which time members of the Seminary are not allowed to preach.

PUBLIC WORSHIP.—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City churches; but whatever may be his decision, it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City

Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

**LIBRARIES.**—The Reference Library of the Seminary, containing nearly two thousand volumes, in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place for each student of a well selected and extensive private library.

The College Library, to which the students have access without charge, contains over 60,000 volumes, and in its theological part is second in value to no other library in the country. This Library is open five hours on every secular day for consultation and for the drawing of books.

The libraries of the College literary Societies, containing an ample selection of general literature, are accessible to theological students.

**PHYSICAL EXERCISE.**—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

**DIVINITY HALL.**—The rooms in the DIVINITY HALL are provided with carpets, beds, bedding, and every necessary article of furniture. They will be assigned to new students in the order of application. A few rooms have two bedrooms attached to them, but, in general, provision is made for each student to room alone. The building is warmed throughout by steam, and lighted by gas. Fire-places are, also, provided in all the rooms. Bath-rooms and other conveniences are placed on every floor. The building is thoroughly ventilated on an approved system.

**EXPENSES AND PECUNIARY AID.**—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$4 to \$5 a week for board; \$15 to \$28 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive aid towards the expense of board and washing. Such students will, also, receive \$100 a

year from the income of Scholarships and other funds belonging to the Seminary. Additional aid to the amount of \$100 annually is afforded by the American Education Society to its beneficiaries. These means of assistance fully cover all the expenses mentioned above.

The scholarships belonging to the Seminary bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel Holmes, Charles Nichols, Roland Mather, Noah Porter, John DeForest, J. R. Beadle, and David Root.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1872-73 commenced on Thursday, Sept. 12, and will continue till the third Thursday in May, when the public Anniversary will be held. The annual examination of the classes, and the meeting of the Alumni, will be held in the same week. The next annual term will begin on Thursday, September 11, 1873.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

DEGREE.—The degree of Bachelor of Divinity is conferred on all members of the Seminary who at the end of the Senior year pass the prescribed examination on the studies of the course, and present an approved thesis on some topic in theology.

---

## Law Department.

---

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, and a Professor of Pleading and Equity Jurisprudence. Lectures are also delivered by CHARLES J. McCURDY, LL.D., on Life Insurance, REV. THEODORE D. WOOLSEY, D.D., LL.D., on International Law, PROFESSOR HOPPIN on English Composition, PROFESSOR HADLEY on Civil Law, PROFESSOR BACON on Medical Jurisprudence, and MARK BAILEY, M.A., on Forensic Elocution.

TERMS AND VACATIONS.—There are two Terms in each year: the Fall Term, beginning on the same day with the first Academical Term (Sept. 12, 1872), and closing on the day before Christmas; and the Spring Term, beginning on the second Wednesday of February (Feb. 12th, 1873), and closing at Commencement (June 26, 1873), with a recess of one week early in May.

COURSE OF INSTRUCTION.—The students are divided into two Classes, Senior and Junior, for each of which a special course of study is provided, but members of either Class may attend the exercises of both, and, so far as they are able, are recommended to do so. On each day of the week, except Wednesdays and Saturdays, both Classes recite from standard text-books, the recitations being accompanied with oral explanations, or prefaced by a short lecture. Wednesdays and Saturdays are devoted exclusively to lectures and moot courts. In the moot courts the students, acting as counsel in the argument of cases, are required to draw the necessary pleadings in the common law form.

Members of either Class can attend any of the lectures of the Professors in the other Departments of the College whenever it may be compatible with their other engagements, and, with a few exceptions only, without charge.

A course of study is also provided for those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to engaging in mercantile pursuits.

The principal *text-books* used in recitations are these:

Blackstone's Commentaries.	Williams on Real Property.
Kent's Commentaries, Vol. I.	Greenleaf on Evidence.
Parsons on Contracts.	Adams on Equity Jurisprudence.
Gould on Pleading.	

**LIBRARIES.**—The special library of the Department contains over 2000 volumes, and the students also have access to the general libraries of the College, and the Law Library of New Haven County.

**PRIZES.**—The **JEWELL Prizes**, each of fifty dollars, will be given during the year, as follows: one prize to that member of the Senior Class who passes the best examination at the end of the course; one prize to that member of the Senior Class who shall write the best dissertation on a given legal topic; one to that member of the Junior Class who shall write the best dissertation on a given legal topic.

**DEGREE.**—The degree of Bachelor of Laws will be conferred as follows:—

1st. Upon Attorneys at Law, who have been members of this Department for one year after their admission to the Bar.

2d. Upon students who have been members of this Department for four terms.

3d. Upon Bachelors of Arts, Science or Philosophy, who have been members of this Department for eighteen months, or for three terms.

4th. Upon students who may have entered this Department as members of the Senior Class, after having pursued the study of the law elsewhere for one year, and after having passed such an examination as would be deemed satisfactory in the case of a student entering the Senior year in course; and who have remained members of the Department for one year, or for two terms, after passing such examination.

Six months' study in the Law School of any other College or University, in the case of Bachelor of Arts, Science or Philosophy, or one year's study at such a Law School in other cases, will be deemed equivalent to attendance during the same time in this Department.

All applicants for this degree are required to pass a satisfactory examination upon the studies pursued by them during their connection with the Department.

Graduates of the Department receiving this degree are admitted to the Connecticut Bar without farther examination.

**EXPENSES.**—The fees for tuition and use of library are \$45. for the Fall Term, and \$55. for the Spring Term, or \$90. for the entire annual session: to be paid in advance, or secured by a bond satisfactory to the Treasurer of the College. Diploma fee, \$5. Good board and lodging can be obtained in New Haven at prices varying from \$5. to \$10. a week.

FACILITIES FOR ATTENDING COURT.—The students enjoy peculiar facilities for observing the actual practice of the profession, as the Law School occupies one floor of the new Court house in New Haven, where the Supreme Court of Connecticut holds two Terms annually, and the Superior Court and the Court of Common Pleas (the principal *nisi prius* Courts of the State) are in session during the greater part of the year. A City Court of both civil and criminal jurisdiction sits daily in the next building. One Term of the U. S. Circuit Court, and two of the U. S. District Court, are also held annually in New Haven.

---

## Medical Department.

---

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology, Pathology, and Microscopy, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, a Professor of General and Special Anatomy and Physiology, a Professor of Physiological Chemistry and Toxicology, and a Lecturer on Insanity.

The course of study is divided into two Terms in each year, a Winter Term and a Spring Term.

The instruction in the Winter Term is conducted by means of Public Lectures, with daily examinations, illustrated by Hospital Instruction, Medical and Surgical Clinics, with abundant facilities for Anatomical Dissections.

In the Spring Term, instruction is given by recitations and lectures. In this Term the students are classified, so that those who are just entering on the study are taught during their *first* year only the more elementary branches; while the studies of the *second* year include the more practical branches. Provision is made for students attending a *third* year, to review the studies of the entire course, with the addition of such collateral branches and advanced courses of reading as the necessities or attainments of individual pupils may require. Two or more recitations are held daily.

While the studies of each of these terms are independent and so far complete in their parts that they may be pursued separately with profit, yet they are designed to be so related to each other, that together they make a full and rounded curriculum of proportional study. In no way can the student more easily and naturally acquire a clear and comprehensive knowledge of the medical sciences in their present advanced position, than by taking these courses in connection, and pursuing his studies at the College for the entire period of three years.

The great advantages of combining lectures with recitations are conspicuously seen in the rapid and substantial progress of the classes, and in the superior manner in which the examinations for degrees are sustained by those who have pursued their entire course at the College.

The Winter Term for 1872-73, being *the Sixtieth Annual Course of Lectures*, begins Oct. 17, and closes Feb. 12. The Spring Term will begin March 6, and continue to the Annual Commencement, June 26.

A SURGICAL CLINIC is held at the College at 12 m., every Wednesday in the year, and a Medical Clinic at 12 m., every Saturday. Clinical instruction is also given at the State Hospital. Arrangements have been recently completed for the erection of new Hospital buildings, which will largely increase the facilities for Clinical instruction.

THE COURSE OF LECTURES ON INSANITY, given last year by A. M. Shew, M.D., Superintendent of the Hospital for the Insane at Middletown, will be continued as part of the regular course of instruction.

THE COLLEGE BUILDING is new and commodious, provided with every convenience, and within a short distance of the State Hospital.

DISSECTING ROOMS.—The spacious and well-appointed Dissecting Rooms are amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

MICROSCOPY, HISTOLOGY, AND PATHOLOGY are illustrated by a sufficient number of compound microscopes and a large collection of the best preparations. It is believed that no institution in this country furnishes the student greater facilities for acquiring exact knowledge in this department.

CHEMISTRY.—The chemical instruction in each term is intended to supplement that given in the other. In the Winter Term, lectures, fully illustrated by experiments, are given upon General Chemistry during the first half of the term; and upon organic and Physiological Chemistry (including the Chemistry of the urine), and Toxicology during the second half.

In the Spring Term, Theoretical Chemistry is taught by recitation, and Practical Chemistry by Laboratory work. The Junior Class work in Elementary Qualitative Analysis; the Middle Class students in advanced Analysis, including the examination of drugs, the urine, calculi, etc. These exercises consist of two hours' daily work. The Senior Class are taught to make original researches in Physiological Chemistry.

THE MUSEUM contains a large collection of natural and morbid specimens, as well as of casts, models and plates, and is, together with the collections in Natural History, the Mineralogical Cabinet, Cabinet of Materia Medica and Libraries of the University, and the Library of the Medical College, open for the use of students.

The advantages of New Haven as a place for professional study are well known and peculiar, and the expenses of living are less than in the larger cities.

**PREPARATORY EDUCATION.**—The Legislature of Connecticut, recognizing the principle that a regular collegiate education forms the proper basis for the study of medicine, has provided, in the Charter of the College, that a difference of one year in the period of study required for a degree, shall be allowed in favor of those who are graduates of Colleges, over those who commence their professional studies without the advantages of a thorough course of preparatory study and mental discipline.

**REQUIREMENTS FOR GRADUATION.**—The candidate for a degree must deposit with the Dean, two weeks before the examination, a *Thesis*, written by himself, upon some medical subject, together with satisfactory certificates from a respectable and regular practitioner of medicine, that he is twenty-one years of age, possesses a good moral character, and has studied medicine under his direction for two years, if he is a graduate of a College, and three years if he is not. He must also have attended two full courses of public lectures, at least one of which must have been in this Institution.\*

The Committee of Examination consists of the Faculty and an equal number of the members of the Connecticut Medical Society, appointed by the President and Fellows of the same; and the President of the Society is *ex officio* President of the Committee of Examination.

Two Examinations for Degrees are held annually, one at the close of the Winter Term, and the other on the Tuesday before Commencement, at the close of the Spring Term.

#### TUITION FEES.

*Always required in advance.*

Matriculation Fee, paid but once, on entering College,	-	\$ 5.00
Winter Term, Lecture Fees,	- - - - -	60.00
For the Spring Term,	- - - - -	60.00
Contingent Expenses of Laboratory, Spring Term.	- -	10.00
Demonstrator's Ticket, paid once a year by those who dissect,		5.00
Graduation Fee,	- - - - -	25.00

*One Hundred Dollars*, in one payment, at the beginning of either term, pays for tuition for *an entire year*.

In the Winter Term students may take the whole or any part of the Lectures at their option; in the latter case the fees are \$10 for each ticket.

---

\* The Spring Term is counted as a part of the time required for Medical Study; but *it does not count* as one of the courses of Public Lectures required for Graduation.

Those who have attended two full courses of Lectures in this Institution, are entitled to admission to the Lectures of any future Winter Term gratis. Those who have attended one full course in this Institution, and a full course in a similar Medical College, are admitted to a full course of Lectures on the payment of Five Dollars for incidental expenses. Those who have attended two full courses in any other accredited College, may receive all the tickets for the Winter Term, including Matriculation, for \$30.00.

## Library and Cabinet.

---

THE COLLEGE LIBRARY numbers over sixty thousand volumes, besides several thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various Departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 10 A. M. to 1 P. M., and from 3 to 5 P. M.; or, during the winter months, from 10 A. M. to 1 P. M., and from 2½ to 4½ P. M.

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing about 16,000 volumes. This library is open daily, from 1½ to 3 P. M.

The Theological, Law, Medical, and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 2,500 printed books and manuscripts, is kept in the College Library building.

### SUMMARY.

College Library (exclusive of pamphlets) over	-	-	60,000 vols.
Linonian and Brothers Library, about	-	-	16,000 "
Libraries of the Professional Schools,	-	-	10,000 "
Total,	-	-	<hr/> 86,000 "

---

THE COLLEGE CABINET embraces an extensive and valuable collection of minerals, systematically arranged; a collection of fossils arranged according to their geological succession, besides large collections not arranged for exhibition; and a valuable Zoölogical collection, of which only a small part can at present be exhibited, for lack of room.

The exhibition hall is free to students and the public. The key is at the Treasurer's Office, 5 Treasury Building.
